

*Circle Line crimping technology
delivers superior
cold weather performance.*

M-618 Specialty Hose Assemblies

M-618 specialty hoses, fittings, hose hangers and other components, along with expert NYAB assistance, deliver improved airflow, more reliable connections and longer hose life.

M-618 hoses, backed by an 8-year workmanship warranty, are built for durability using Circle Line crimping technology for superior performance in high-vibration environments and extreme temperatures (-50° to 212°F).

Our hose manufacturing process provides superior adhesion between the 4-wire reinforcement and compound layers, resisting voids and premature hose separations.

Steel and textile reinforced M-618 hoses with link-in liners hold tight in high vibration environments.

E₂O: 8-year workmanship guarantee

*M-618 specialty hose assemblies
are available for all car and
locomotive applications.*
